The White County Area Plan Commission invites you to participate in a series of Public Workshops.

The Comprehensive Planning process will produce a document that is community-based, market driven and action focused. A Comprehensive Plan is required by State Statute and guides Land Use, Development/ Redevelopment, Agriculture, the Environment, Quality of Life and Transportation.

Stop in at any time to participate in activities designed to generate ideas for the future of White County. Refreshments will be served, and families are welcome.

Please follow this process on the White County Comprehensive Plan Website:
